

# Membership Benefits

The WTGF currently has over 60 member countries, most of whom have their own national transplant sport organisations. Every year we see new members join the Federation with an opportunity to now participate in the World Games and benefit from the various educational campaigns, which we undertake.

Membership fees are paid every two years, and each member country allocates a Country Representative and Team Manager for constant liaison and collaboration with the federation.

Current membership fees are \$375 for the two-year period.

## What do members get

As a member of the WTGF you receive both abstract and tangible benefits.

- Affiliation to the WTGF – the only global and international

Federation of its kind in the world.

- The opportunity to join a worldwide community with a unified purpose.
- The confidence that your membership and participation assists us in getting closer to the cause and seeing greater results and outcomes.
- WTGF member logo which may be included in your marketing campaigns
- Access to participate in the Summer and Winter World Transplant Games whilst representing your country.
- Access to collaborate on all WTGF campaigns, and benefit from the initiatives, which we undertake, such as the Fit For Life Initiative.
- Power to vote at the WTGF General Assembly
- Assistance and guidance from the WTGF in setting up a transplant sport organisations

- Guidance in the business development of member associations in areas relating to hosting national Games, marketing their association and growing their member base.
- Access to a network of like minded associations where they can learn, share and assist one another.
- Access to the latest information, articles, trends and developments in the organ donation and transplantation sector through our regular newsletters and our publication, "TransplantWorld Journal"
- Opportunity to Market your own organisation, campaigns and initiatives through our global WTGF website and social media platforms.
- Benefits of international media exposure around World Games and Fit For Life initiatives.
